BS 6724 Armoured Power Cables, 600/1000V

Multi-core 600/1000V cables with stranded copper conductors

7C1.5

APPLICATIONS

These cables are used for power and control circuits, they can offer excellent protection through the use of a heavy galvanized steel wire armour. The GSWA makes them suitable for use inside and outside buildings or for direct burial in the ground. For installation where fire, smoke emission and toxic fumes create a potential threat to life and equipment.
